

### **In the Abstract**

Please amend the abstract to read as follows:

A kit for inflating and repairing inflatable articles, in particular ~~tyres~~ tires, the kit having a compressor assembly, a container of sealing liquid and ~~connecting means~~ connectors for connecting the container to the compressor assembly and to an inflatable article for repair or inflation; the compressor assembly being housed in an outer casing defining a seat for the container of sealing liquid, ~~and~~ The container ~~being~~ is housed removably in the seat and functionally connected to the compressor assembly so as to form a compact unit ready for use.

A clean copy of this abstract is being submitted on a separate page.
